

**Versatile Food Grade Bean**

Area of Best Adaptation

- High Protein Product
- Solid Agronomics
- Great for IP Markets

**Product Description**

(Rating - 9 is best)

<u>General Characteristics</u>	
Exp #	6781
Year Released	Spring 2008
Relative Maturity	3.2
Yield for Maturity	6
Recom. Soil Type <sup>+</sup>	HP-LP
No-Till Adapted	7
Summer Canopy	Bushy
Recom. Population	Medium
Recom. Row Widths	All
Shatter Score	8
Harvestability	6

<u>Plant &amp; Seed Traits</u>	
Seedling Emergence	8
Hypocotyl Elongation	3-4"
Plant Height	Med. Tall
Standability	6
Flower Color	Purple
Pubescence	Gray
Pod Color	Brown
Seeds/Pound	2400
Hilum	Yellow
Seed Protein	43.20%
Seed Oil	21.60%

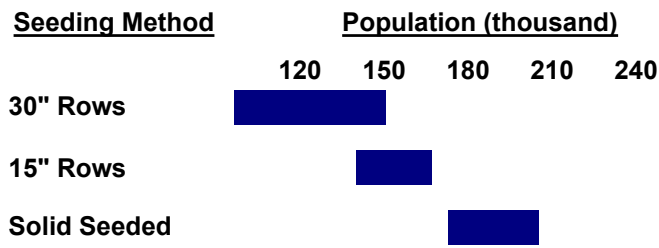

<u>Plant Health Traits</u>	
Phytophthora Res.	None
Phytophthora Tolerance	6
Sudden Death Syndrome	6
Brown Stem Rot	6
White Mold Rating	7
Frog Eye Leaf Spot Tol.	NR
<u>Cyst Nematode</u>	
Race 3	Susceptible
Race 14 (4)	Susceptible

<sup>+</sup>HP = High Productivity    <sup>+</sup>MP = Med. Productivity  
<sup>+</sup>LP = Low Productivity    <sup>+</sup>M = Muck  
 NR = Not Rated
